WORK EXPERIENCE

September 2021 – Present

Audit & Accounting Consultant

EuroPro-Audit SRL, Chişinău, Republic of Moldova

Main activities and responsibilities:

Provide comprehensive accounting services for companies operating across various industries, including maintaining accounting records, preparing financial statements, and ensuring compliance with International Financial Reporting Standards (IFRS), National Accounting Standards (NAS), and applicable tax legislation. Participate in statutory and voluntary financial audit engagements for private companies, public sector entities, and non-profit organizations by reviewing accounting records, evaluating internal controls, performing analytical procedures, and preparing audit documentation. Advise clients on accounting policies, taxation, financial reporting, and the effectiveness of accounting information systems, supporting the improvement of internal controls, business processes, and the digitalization of accounting and financial management functions.

September 2020 – August 2021

University Lecturer

Academy of Economic Studies of Moldova, Chişinău, Republic of Moldova

Department of Business Informatics

Main activities and responsibilities:

Delivered undergraduate lectures and practical classes in business informatics, accounting information systems, and digital technologies for business. Supervised student research projects, developed teaching materials and course content, contributed to curriculum development, and conducted research in digital economy, enterprise information systems, and business process digitalization.

February 2016 – August 2020

Junior Auditor & Accounting Systems Consultant

EuroPro-Audit SRL, Chişinău, Republic of Moldova

Main activities and responsibilities:

Provided accounting services for companies across various industries, including maintaining accounting records and preparing financial statements. Participated in financial audit engagements by preparing audit documentation, performing analytical procedures, evaluating internal controls, and supporting the optimization of accounting information systems and financial reporting processes.

August 2014 – February 2016

Senior Project Designer, Project Development Directorate

State Enterprise "FiscServInform", Chişinău, Republic of Moldova

Main activities and responsibilities:

Participated in the design and development of government information systems supporting tax, customs, and public administration processes. Conducted business and system analysis, translated legislative and regulatory requirements into functional specifications, modeled business processes, and prepared technical documentation for software development teams. Collaborated with stakeholders throughout the project lifecycle, including requirements gathering, solution design, testing, implementation, and system acceptance, ensuring compliance with national legislation and operational requirements.

January 2014 – August 2015

Editorial & Localization Specialist

Fiscal Monitor "Fisc.MD" Periodical Publication, Chişinău, Republic of Moldova

Main activities and responsibilities:

Created and managed a dedicated online section focused on accounting software and business process automation. Authored, translated, and edited professional articles in English, Romanian, and Russian on accounting technologies, digital solutions, and financial software, ensuring high-quality multilingual content for publication.

January 2013 – December 2013

Coordinating Specialist, Accounting and Finance Directorate

State Enterprise "VamServInform", Chişinău, Republic of Moldova

Main activities and responsibilities:

Performed day-to-day accounting activities, including processing primary accounting documents, recording financial transactions, maintaining accounting records, preparing accounting reports, and supporting month-end and year-end closing procedures. Assisted in the administration and optimization of 1C Accounting (v7.7/v8.0), ensuring accurate financial data processing and efficient accounting workflows.

Core Competencies

Strong communication, analytical, and organizational skills, supported by experience in project coordination, international collaboration, academic teaching, and public presentations. Proficient in managing multidisciplinary tasks, conducting data analysis, and applying modern digital technologies, including AI-powered solutions, to optimize accounting, auditing, financial reporting, and business processes. Experienced in research, analytical problem-solving, technical documentation, and delivering practical, data-driven solutions in dynamic professional environments.

Publications

Total Publications: 22 peer-reviewed publications

Total Citations: 35+ (according to Google Scholar)

Areas of expertise

My professional expertise includes financial accounting across various industries, preparation and analysis of financial statements, internal and external auditing, risk assessment, internal control evaluation, and ensuring compliance with IFRS and national accounting standards. I have experience in optimizing accounting and audit processes, implementing digital solutions, and applying artificial intelligence to automate accounting, auditing, financial reporting, and analytical procedures. I am equally confident working in financial audit, internal audit, and advisory roles, combining strong analytical skills with a focus on efficiency, innovation, and continuous process improvement.
